

UJJWAL PRAKASH

FRONTEND DEVELOPER | REACT.JS | JAVASCRIPT | TAILWIND CSS | FIREBASE

✉ ujjwallp22@gmail.com | ☎ +91-8252814838 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Frontend Developer with hands-on experience building web applications using React.js, JavaScript, Tailwind CSS, and Firebase. Developed projects including JobPilot, NextWatch, and Sitamarhi Hometown, with experience in authentication, API integration, state management, and responsive UI development. Passionate about creating user-friendly web applications and continuously improving frontend development skills. Currently seeking Frontend Developer and React Developer opportunities.

TECHNICAL SKILLS

Frontend:	React.js, JavaScript (ES6+), HTML5, CSS3, React Router, React Hooks
Styling:	Tailwind CSS, Responsive Design, Flexbox, CSS Grid, Framer Motion
Backend & DB:	Firebase Authentication, Cloud Firestore
Tools & Platforms:	Git, GitHub, Vite, VS Code, Vercel, Netlify, Chrome DevTools
Concepts:	REST APIs, Context API, Component-Based Architecture, State Management, Local Storage

PROJECTS

JobPilot – Job Application Tracking Platform

[Live Demo](#) | [GitHub](#)

Tech Stack: React.js, Vite, Tailwind CSS, Firebase (Auth & Firestore), React Router, Lucide React

- Built a job application tracking platform that helps users manage applications, interview stages, and job search progress through a Kanban-style dashboard.
- Integrated Firebase Authentication and Cloud Firestore for secure user management, data persistence, and real-time syncing.
- Built a highly responsive and accessible UI using Tailwind CSS with a clean, reusable component architecture.
- Implemented application tracking workflows, search and filtering functionality, and dashboard insights for managing job applications.

NextWatch — Movie Discovery Platform

[Live Demo](#) | [GitHub](#)

Tech Stack: React.js, Vite, Tailwind CSS, Framer Motion, TMDB API, Context API

- Built a movie and TV discovery platform that allows users to explore trending, popular, and top-rated content using the TMDB API.

- Developed a real-time search feature utilizing a custom debounce hook to minimize redundant API calls and improve performance.
- Developed custom "Watchlist" and "Watched" features leveraging React Context API and Local Storage to persist user preferences.
- Designed a responsive and intuitive interface using Tailwind CSS and Framer Motion, ensuring smooth micro-animations.

Sitamarhi Hometown — Tourism & Heritage Portal

[Live Demo](#) | [GitHub](#)

Tech Stack: React, Vite, Tailwind CSS, React Leaflet, Framer Motion

- Developed a tourism and heritage portal to showcase Sitamarhi's history, culture, attractions, and important district information.
- Integrated interactive maps using React Leaflet to help users explore landmarks, sacred sites, and key locations visually.
- Built a mobile-friendly interface with reusable React components and implemented smooth scroll navigation.
- Improved content organization and accessibility to provide a premium, modern user experience for visitors and local residents.

EDUCATION

B.Tech in Computer Science and Engineering

2020 - 2025

Lovely Professional University

CGPA: 6.96 / 10

CERTIFICATION

Scrimba Frontend Developer Career Path

December 2025 - June 2026

Completed hands-on training in HTML, CSS, JavaScript, React, Git/GitHub, and API Integration.
